Thinking about the needs of families, the apartments promise to offer very generous areas, both indoor and outdoor, and to provide maximum comfort.

All apartments will have kitchens equipped with recessed BOSCH brand appliances and will be in an open plan with the living and dining rooms. The bathrooms will have electric underfloor heating and good quality suspended sanitarries. The bedrooms will all have built-in wardrobes, and access to terraces.

Air conditioning will be present in each main room, and each window, of aluminum frames with thermal cut and double glazing with sun protection and thermal and acoustic insulation, will have electric shutters and blinds.

Solar system for water heating, video intercom, high security armored doors, private parking (one or two spaces per apartment, depending on the typology), among other specificities make this condominium the right choice to live in the best comfort.

Completion of the construction scheduled for December 2024.
